

Digital Farm Management

Topcon Agriculture Platform (TAP)

TAP is an easy-to-use tool to organize, visualize and make better farm management decisions based on data from across your entire farming operation.

Capabilities Key

1 | Dashboard

Organize operations and tasks in customizable widgets.

2 | Market

Subscription management portal for efficiency.

3 | Storage

Efficiently cleanse, organize, and share nearly all data formats.

4 | Remote Support

Complete direct support in-cab for Topcon consoles.

5 | Automatic Sync

Auto uploads and syncs all in-cab and office data. Topcon console required.

6 | Fleet*

Manage, track and monitor fleet metrics.
*CL-55 required.

7 | Cloudlynk Activation

Activates Cloudlynk devices associated with TAP Fleet subscription.

8 | NTRIP

Internet based corrections for Topcon guidance receivers.

9 | RTK Radio

Optional RTK radio for Topcon guidance receivers.

10 | Fields

Layer all field data for agronomic insights. Visualize and decide.

Subscription	Description	Capabilities (See key above)										Data Transfer
		1	2	3	4	5	6	7	8	9	10	
TAP Fields*	An innovative and easy to use platform to consolidate and organize all farm data.	X	X	X	X						X	Direct upload, CL device or Wi-Fi*
TAP Pro	Automate the data workflow, with streamlined connection and fleet management.	X	X	X	X	X	X	X			X	CL-20 or CL-55
TAP Fleet	Clearly track machines and status, anywhere, anytime.	X	X				X	X			X	CL-55
TAP Addons												
TAP Grain Cart	Automatic upload of Connected Grain Cart data to TAP Fields/Pro account.					X						CL-55
Cloudlynk Connectivity Devices												
CL-20	Constant connectivity with any X Family console. Or seamlessly transfer data from many third party consoles to TAP.				X	X			X			CL-20
CL-55	Constant connectivity with any machine or implement.				X	X	X		X	X		CL-55
Cloudlynk Activation	Required to activate: CL-20 and CL-55 for RTK NTRIP functionality / CL-55 cellular connectivity for TAP Grain Cart					X		X	X			CL-55
